

Tuesday April 10 2018

## Workshops/Tutorials

Track 1	Track 2
8.30 – 10.00 AM Mobile Alerts for People who Wander: Where RFID/NFC, Biometrics and GPS meet Katina Michael and Roba Abbas University of Wollongong	8.30 – 10.00 AM RFID and IoT within the Agribusiness Industries.  Alfredo Arnaud Maceiram Universidad Católica del Uruguay
10.30 – 12.00 PM RFID Security Concepts and Trends. Jim Springer and Stephanie Salgado EMMicro	10.30 – 12.00 PM Reverse Engineering a Passive UHF tag. Brian P. Degnan Georgia Institute of Technology
1.00 – 2.30 PM 3D-/4D-/Inkjet-Printed Flexible RFID and RFID-enabled Sensors and Modules for IoT and Smart Skin Applications. Manos M. Tentzeris Georgia Institute of Technology	1.00 – 2.30 PM Total Farm Management Practices Using RFID  Katina Michael and Adam Trevarthen University of Wollongong

## Peer2Peer Roundtable

3:00 – 4:30 PM

Past and Future of RFID in,

Track 1 – Antenna and Propagation

Track 2 – Circuits, Devices, and Interrogators

Track 3 – Application, Sensors, and Security

The goal is to stay with the theme of the conference and align with Dr. Sarma's keynote. An industry and academic lead in each group to facilitate the discussion.
